

SURGICAL FELLOW IN TRAUMA AND RURAL SURGERY (CLINICAL)

A position exists for a suitably qualified candidate for 12 months commencing late January/early February 2020.

The position is funded by the National Critical Care & Trauma Response Centre (NCCTRC) and is designed for a General Surgeon seeking to develop a broad skill-base in trauma surgery and acute care surgery outside of the normal domain of a metropolitan surgeon.

The position is based at Royal Darwin Hospital in the Northern Territory, and involves outreach work to regional hospitals in Katherine and Gove. It also includes visits to isolated Indigenous communities throughout the Top End and opportunities for research in trauma and indigenous health.

This position would be of relevance to those interested in rural surgery, or working as a surgeon in remote environments such as humanitarian or military situations.
